

# Citizen Advisory Committee

Would you like to help make decisions about these  
natural and water resources in our community?

## Do you

enjoy walking or biking on the Brown's Creek Trail?

have concerns about the lakes, streams and  
groundwater in the Stillwater area?

The Brown's Creek Watershed District's Citizen  
Advisory Committee (CAC) needs your help!

Learn more at [www.BCWD.org](http://www.BCWD.org)

The Brown's Creek Watershed is a 30 square mile area of land around Brown's Creek. The Creek travels from its headwaters in Grant, south through Stillwater, and outlets east at the St. Croix River.

The Brown's Creek Watershed District helps to manage the water resources in this area, including Long Lake and Brown's Creek for water quality, flooding concerns, and tries to improve the ecosystems of these areas.

The Citizen's Advisory Committee is group of Watershed residents that meet bimonthly to help the Watershed Board make decisions about how these resources are managed, and plan events and programs for the community. No experience necessary. Everyone over the age of 16 may apply. Applicants must be residents of the Brown's Creek Watershed District.
